

Tacolneston Parish Council
Fixed Assets Policy and Register 2023

Introduction

The term fixed assets means “property, plant and equipment with a useful life of more than one year used by the authority to deliver its services.”

The Council, who shall be the custodian of all assets, will maintain a register of the fixed assets and other non-current assets that they hold, which will greatly reduce the risk of financial loss. This register should also contain minor items such as office equipment or tools etc.

Risk

If the assets the Council owns, or for which it is responsible, are not being managed properly the authority is exposed to the risk of financial loss relating to:

- improper asset management – without the right management information, outdated patterns of use may run on unchallenged or unnoticed;
- improper asset usage and maintenance – assets may not be fit for purpose, be underused or so out-of-date as to be incapable of satisfactory modernisation. Equally they may be capable of alternative, additional or more intensive use or be readily saleable. These opportunities may be missed where no comprehensive information on assets is available; and
- asset ownership – the continued ownership of assets may be overlooked altogether and risks unmanaged.

Asset Register

An asset register is the starting point for any system of financial control over assets as it:

- facilitates the effective physical control over assets;
- provides the information that enables the authority to make the most cost-effective use of its capital resources;
- ensures that no asset is overlooked or underutilised and is therefore used most efficiently;
- pools all the information available about each asset from across the authority and makes it available to every part of the authority;
- provides a record of the sources of evidence used to support the existence and valuation of assets to be covered by insurance;
- supports the Annual Governance and Accountability Return entry for capital assets by collecting the information on the cost or value of assets held;
- forms a record of assets held for insurance purposes.

Asset Valuation

The Council adopts the commonly used method of fixed asset valuation for first registration on the asset register at acquisition cost. This means that once recorded in the asset register, the recorded value of the asset will not change from year to year, unless the asset is materially enhanced.

Tacolneston Parish Council Asset Register 2023							
	Asset	Quantity	Location	Acquisition Date	Purchase Cost (if known)	Replacement Cost (estimate)	Responsible Party
